Title: NET Software Engineer

Status: COMPLETE

From: MONSTER.BE

Enterprise: aprico consulting

Summary: Aprico Consultants - .NET Software Engineer

Reference: 1906692

At Aprico Consultants, we do what we say and we say what we do. Transparency is key. We like people who are eager to learn, just like we are. Because growing means learning. We can't wait to welcome you as the newest member of the Aprico family.
Working for Aprico Consultants in one word: Ambition? Passion? Excellence? Development? Fulfilment? Of course. We're committed to all of that. Just like you, we believe that it's about quality, rather than quantity. What's more, you'll join a community of coaches and consultants who are as motivated as you are.
We are looking for an experienced .NET Software Engineer who is interested in a real technical challenge for a mission in Gosselies

Your new role
As a Microsoft Software Engineer, you will be responsible for the development of .NET applications according to the business needs in an agile context.
This implies that you will participate, in close collaboration with both the product owner and the team members, to the construction of the product and sprint backlogs.
You will be responsible to deliver unit tested code and its technical documentation.
You will finally be responsible to manage incidents and propose solutions.

What do we expect of you?
You have a bachelor or master's degree in IT.
You have at least 3 years of professional experience as Microsoft software developer.
You have excellent communication skills. You speak at least French and/or Dutch fluently, and have a good knowledge of English.
You are willing to take the technical lead.
You ambition to become an expert in what you do, are willing to invest in yourself, and have a strong focus on quality.
You have a burning desire to be the best in:
C#, .NET Platform, ASP.NET Core, Entity Framework

SPA built with JavaScript/TypeScript and Angular

Jasmine, xUnit/NUnit, Moq, Autofixture, Fluentassertion

Visual Studio and VS Code, Azure DevOps

(Azure) SQL Server

Agile (Scrum)

UML

You're interested in Integration projects (knowledge in BizTalk is a nice to have)

You have a real motivation to be an ambassador for Aprico Consultants at all times

What Aprico offers

Are you still there? Perfect. Here's what we offer you:

Stimulating projects with major players? It's a deal.

Genuine career support? Absolutely.

Information, training, certification? We promise.

Coaches and mentors to support and stimulate? That's right: just for you.

A competitive sala
